

2x4 LED PANEL LIGHTS

Description

These beautiful thin panel fixtures provide smooth, even light and fit easily into 2x4 drop ceiling grids. The 2-inch profile makes these panels an ideal option for tight spaces, under vents, wires and other obstructions. Using extremely high quality, high output 130 lumens-per-watt Samsung LED chips and multi-voltage Mean Well drivers, these panels are engineered for maximum reliability and are compatible with 0-10v dimmer controls. Available in 4000K or 5000K.

Features

- 130 lumens per watt
- Five Year Warranty
- L70 Rating: 50,000 hours
- CRI: Ra>80
- Low Profile Recessed Mounting (2")
- Surface Mounting Kit Optional
- 10%-100% smooth linear dimming
- 10 lbs
- DLC Approved
